

José Gabriel Maza Mendoza

Full-Stack Software Developer

✉ mazamendoza123@gmail.com ☎ (+57) 300 8420902 📍 Barranquilla, Colombia

PROFESSIONAL PROFILE

Systems and Computing Engineer with experience as a full-stack developer, specializing in Next.js projects. Throughout my career, I have demonstrated strong adaptability, working on a variety of projects and developing both user interfaces (front-end) and robust APIs (back-end). This experience has given me a deep logical understanding, enabling me to quickly learn new technologies and adapt to different roles and projects.

PROFESSIONAL EXPERIENCE

09/2025 – Present Barranquilla	FullStack Developer <i>Ministerio de minas</i> Developing a full-stack web application to map and manage actors in the mining sector. Designing and maintaining a FastAPI backend with SQLAlchemy and MySQL, and a React frontend focused on data visualization and efficient API integration. The platform supports structured data collection and decision-making processes within the Ministry
06/2025 – 08/2025 Barranquilla, Colombia	FullStack Developer <i>Guarapo labs</i> Supporting the development team in client-initiated projects for international clients and participating in the creation of a new project involving front-end, back-end, and AI concepts
02/2025 – 05/2025 Barranquilla, Colombia	FullStack Developer <i>Clazz Dev</i> Developed AI-driven automation workflows and custom virtual assistants using OpenAI models, n8n, FastAPI, and Python. Fine-tuned language models to align with specific business use cases, integrating external APIs and structured prompts to enhance conversational accuracy. Designed and deployed backend services for assistant orchestration, and contributed to the design of scalable automation pipelines for internal and client-facing processes
06/2024 – 01/2025 Barranquilla, Colombia	FullStack Developer <i>I-Cluster</i> Developed software solutions for an emotional health project in the municipality of Tolú. Utilized technologies such as React and Express to build scalable and efficient applications. Collaborated with cross-functional teams to design and implement features that supported mental well-being initiatives. Ensured quality and reliability through robust testing and adherence to best practices
04/2022 – 06/2024 Barranquilla, Colombia	FullStack Developer <i>Infinity Tech Consulting</i> Developed and maintained full-stack web applications using Next.js, Flask, and Prisma, working on both front-end and back-end, and deploying on AWS and Vercel. Contributed to database modeling, requirements documentation, and use case development. Created responsive user interfaces for landing pages, forms, and custom projects, and implemented Git-based development methodologies for quality assurance across complex projects
11/2020 – 01/2022 Barranquilla, Colombia	Support <i>Sofin SAS</i> Managed error requests related to electronic invoicing and conducted ERP code testing to improve system stability

EDUCATION

2018 – 2022 Barranquilla, Colombia	Systems Engineer <i>Universidad del Norte</i> Distinction: Outstanding Student
